

State of the Basin: Transition

Best practices research

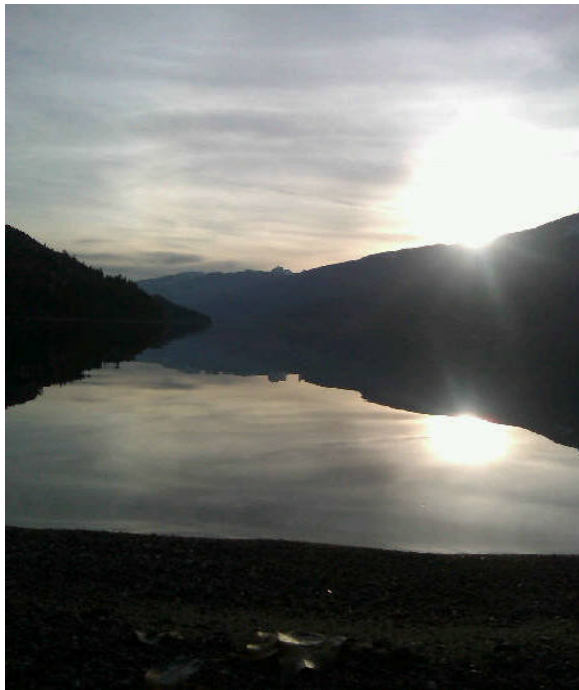

State of the Basin 2008 'Lessons Learned' research

Consultations with key stakeholders

Formation of regional advisory group

State of the Basin: Approach

- **Integrated** 'well-being' & 'sustainable development' **framework**
- Prioritize analysis of **interrelationship** between 'dimensions'
- Inclusion of **objective and subjective measures**
- **Online** tool with geospatial **mapping** and ongoing **trends analyses**

State of the Basin: Approach

- **Search and compare** indicators by community and corridor
- **Mixed method**, quantitative and qualitative methodologies
- Focus on indicators that can **inform decision-making**

State of the Basin: Initial Framework

State of the Basin:

Transitioning to an Integrated Framework
